

MULTI

Coloured soff multi yarns

colours & yarns for weaving

GIVE SPACE TO COLOURS!

MULTI is a new line of yarns 100% polyester made by Sinterama. The main peculiarity of this line is matching together several items of different types in order to create yarns in every kind of counts with amazing chromatic and shining effects.

Furthermore the Micro version adds big versatility and flexibility in the unlimited matching of colours, besides a unique softness that enables the realization of really smooth fabrics.

100% POLYESTER... SINTERAMA'S GUARANTEE

Since these yarns are 100% polyester, fabrics produced with **MULTI** provide excellent tenacity and resilience, high abrasion resistance both to creases and to heat, elevated elastic module and a minimum moisture recovery, as well as a good resistance to chemicals and physical agents.

Moreover fabrics produced with polyester yarns are generally easier to maintain, they dry faster and do not necessary require to be ironed, leading to a saving of water, energy and detergents.

Thanks to these features, **MULTI** yarns can be utilized in various sectors, from apparel to déko and home-furnishing.

These are the physical features of **MULTI**:

Density	g/cm ³	1,38
Softening point	°C	220-230
Melting point	°C	255-265
Moisture regain	%	0,4
Thermal conductivity	Cal/cm*s*°C	2,10-4,00
Specific heat	Cal/g*°C	0,32

SOFT... LIKE A FEATHER!

MULTI yarns with multi or micro filaments are aimed to achieve the best compromise among a soft handle, a bulky feel and a good fabric strength.

Even with the finer dpf, dyeability and colour saturation on yarns and fabrics are similar to those achieved with courser filaments.

So **MULTI** yarns mix technical requirements - such as transpirability, resistance to stress and easy care - with a soft handle and a unique softness that make them particularly comfortable for those who wear them, even for intimate apparel.

Thanks to these features **MULTI**, besides being suitable for apparel mixing the attractive beautiful of several bright colours with the comfort of an ultra-soft fabric, is ideal to give brightness and colour to the warps for upholstery fabrics as well as for the most sophisticated curtains.
